

48v 25ah outdoor battery cabinet

What is a battery cabinet?

Equipped with the HindleHealth System, the Battery Cabinet will keep your battery at the ideal temperature in the most extreme of environments, giving you peace of mind. HindlePower's Outdoor Battery Cabinet takes a proactive approach to hydrogen mitigation.

What is an outdoor Battery Cabinet?

HindlePower's Outdoor Battery Cabinet is constructed of extremely durable injected foam panels that achieve a level of thermal performance not previously seen in traditional battery cabinets. Feel confident your batteries will maintain 65°F for outdoor ambient temperatures down to -40°F and 77°F for outdoor ambient temperatures to 122°F.

What is a fogstar energy outdoor Battery Cabinet?

Crafted from durable carbonised steel, the Fogstar Energy Outdoor Battery Cabinet is engineered for exceptional strength and longevity. Its weatherproof design ensures your valuable batteries are protected from the harshest elements, preventing damage and ensuring consistent performance.

What is a fogstar energy 48v battery system & IP56 rated outdoor cabinet?

Take your energy independence to the next level with the robust and versatile Fogstar Energy 48V Battery System and IP56 rated outdoor cabinet. Designed to withstand the elements while delivering reliable power, this cutting-edge outdoor cabinet is the perfect solution for storing your battery system, come rain or shine.

What temperature will my outdoor Battery Cabinet maintain?

Feel confident your batteries will maintain 65°F for outdoor ambient temperatures down to -40°F and 77°F for outdoor ambient temperatures to 122°F. Take a look at our 3rd party test data [here](#) to view it yourself. HindlePower's Outdoor Battery Cabinet is certified to IBC 2012, CBC 2013, and IEEE 693 to the highest levels.

How does hindlepower's outdoor battery cabinet work?

HindlePower's Outdoor Battery Cabinet takes a proactive approach to hydrogen mitigation. Rather than using a monitor to alarm when the amount of hydrogen exceeds the lower explosive limit, the Cabinet purges the air based on battery Ah capacity and technology based on the guidelines set forth in IEEE 1635.
