

# Belize Energy and Chemical Small Container Station

Which company is Belize's premier energy company?

Belize Natural Energy (BNE) is Belize's premier energy company. As the leader in the responsible exploration, production, and marketing of oil and gas in Belize, BNE's operations span the full range of oil and gas activities: from drilling and geology to gas processing and branding.

Where does Belize Natural Energy ship oil?

Belize Natural Energy has shipped oil to customers in Costa Rica, Panama, and the US Gulf Coast. In 2007, BNE started the implementation of a gas processing plant with the objective of reducing flaring by processing associated gas into usable products that benefit the company and the people of Belize.

What is Belize light crude?

Belize Natural Energy sells Belize Light Crude (BLC) both locally and internationally. BLC is transported using a Belizean fleet of tanker trucks from the Central Gathering Facility at Iguana Creek to the port in Big Creek for shipment abroad. Today BNE operates the most modern hydrocarbon logistics system in Belize and the region.

Who is Belize Natural Energy?

Belize Natural Energy is a pioneer energy company in Belize, Central America. We produce and deliver leading energy solutions, positively impacting people and creating opportunities. Our innovative, driven and proven team is our greatest resource, conducting business in a socially and environmentally responsible manner.

Is Belize a good place to invest in energy?

Belize's energy sector is looking to expand in biomass and small-scale solar, as well as create new opportunities in electric vehicles, large-scale solar, liquefied natural gas (LNG), and waste-to-energy. However, Belize remains a net-importer of electricity from Mexico, which makes energy imports expensive and unpredictable.

Will the government of Belize invest in solar energy?

The Government of Belize intends to encourage investment in utility solar-energy facilities. However, it has not yet publicly announced a request for proposals. On a smaller scale, the Government of Belize has installed solar micro-grids and solar-powered streetlights in rural communities not yet connected to the national grid.
