

Brazil distribution cabinet container base station

What is the regulation of storage facilities in Brazil?

In Brazil, the regulation of storage facilities is a crucial aspect of the logistics and warehousing sector. The framework for these regulations is primarily established at both national and local levels, aiming to maintain safety, efficiency, and compliance within the industry.

Why should you choose a customs terminal in Brazil?

These facilities keep your cargo moving through Brazil's key trade hubs, and offer efficient customs clearance, secure storage, and optimized logistics, keeping your supply chain running smoothly. Strategically located just 6 km from the Port of Santos, this terminal is a Special Enclosure for Export Customs Clearance.

Who is container box?

Container Box was founded in 2012 after the great repercussion of the Projeto Casa Container, pioneer Brazilian project of sustainable construction in Shipping Containers, by the architect Danilo Corbas, built at Granja Viana in São Paulo.

Are logistics & warehousing companies complying with environmental regulations in Brazil?

The logistics and warehousing sectors in Brazil are facing increasing scrutiny and demands for compliance with environmental regulations. These regulations not only aim to protect the environment but also drive companies towards adopting sustainable practices.

How is warehousing regulated in Brazil?

In Brazil, the landscape of warehousing and logistics is governed by a robust framework of standards that ensure operational efficiency and safety. To maintain compliance with these standards, various monitoring mechanisms are employed, primarily involving inspections by regulatory agencies.

What are the safety standards in warehousing in Brazil?

In Brazil, safety standards in warehousing are governed by a framework of regulations designed to protect employees, ensure safe operations, and mitigate risks associated with storage facilities. Central to these regulations is NR 11 (Norma Regulamentadora 11), which specifically governs the safe handling of materials within warehouses.
