

To support Bulgaria's transition to a more sustainable and diversified energy mix, IFC is financing a 225-megawatt (MW) direct current solar photovoltaic (PV) project developed ...

PPC Group's development in the Bulgarian Renewable Energy Sources (RES) market is marked by the start of construction of a new photovoltaic power plant with battery ...

The Tenevo project, located in the Yambol Province of southeastern Bulgaria, is rolling out the first phase of a massive energy transition covering Eastern Europe, according to ...

The latest white paper, prepared by Fluence in collaboration with APSTE, examines the current state of the Bulgarian energy market and the potential for energy storage applications to ...

The Ministry of Energy of Bulgaria prepared EUR 589 million in grants for standalone energy storage projects. The deadline for applications is November 21. With the ...

As Europe races toward climate neutrality, Bulgaria's surge in storage capacity signals a shift not only in national priorities but also in regional energy dynamics.

The project is the first utility-scale Battery Energy Storage System in Bulgaria as well as one of the first of such scale in Eastern Europe. The 25MW/55 MWh BESS supports a ...

In July 2020, the Bulgarian energy solutions provider CEZ ESCO, a subsidiary of the power utility CEZ, signed a contract with the local unit of the Hamburg-based copper producer Aurubis, for ...

Energy from renewable sources is legislatively defined as "energy from renewable non-fossil sources, namely wind, solar (solar thermal and solar photovoltaic) ...

The project includes an energy storage station with a power output of 25MW and an energy storage capacity of 55MWh being built near the solar ...

Enery, a leading renewable energy solutions provider, announces the official opening of its largest solar power plant in Tsenovo Municipality, North Bulgaria. The Tsenovo ...

The latest white paper, prepared by Fluence in collaboration with APSTE, examines the current state of the Bulgarian energy market and the potential ...

Bulgarian photovoltaic energy storage power station

Greek electric power company Public Power Corporation (PPC) said it has begun construction of a 165 MWp solar photovoltaic (PV) plant with a co-located battery energy ...

The new solar generator in Oryahovo combines over 100,000 PV modules with 107 MWh of energy storage, supporting energy trading and strengthening Bulgaria's power grid.

A BESS facility of 124.1 MW in operating power was inaugurated in Lovech in Bulgaria. Located next to a photovoltaic park within Balkan Industrial Park, it is part of the ...

storage is hindering Bulgaria in the development of an energy storage market. Furthermore, Bulgaria's energy legislation and grid codes have been historically written with thermal plants ...

Located next to a photovoltaic park within Balkan Industrial Park, it is part of the country's first closed licensed power distribution system. The Bulgarian city of Lovech, ...

Serbia is negotiating with Hyundai Engineering and UGT Renewables after selecting them for a strategic partnership for 1 GW of solar power with batteries. Turkey has ...

Founded in 2020, TRAKIA MT SOLAR Ltd. is part of the Winslow Solar Energy group and owns and operates the Malko Tarnovo Photovoltaic Power Plant (PVP) with a total installed capacity ...

In a matter of months, Bulgaria's total solar power capacity is set to exceed 3 GW, compared to just 1.3 GW at the end of 2021. The lineup in ...

Transformation of AES Galabovo into a large-scale energy storage facility using proven technology implemented in concentrated solar power plants (CSP) using molten salts

Bulgarian photovoltaic energy storage power station
