

Canadian DC power inverter

What kind of power inverters are available in Canada?

Promotions, new products and sales. Directly to your inbox. DC AC Power Inverters Canada 12V 24 Volt voltage converters power inverters for solar and remote applications, we also offer voltage converters, plug adapters, jumper cables, jump starters and power accessories, we offer the Krieger, Energizer, Power Bright, Eveready and HammerDown brands.

What is an inverter & charger?

Inverters & Inverter Chargers - An inverter is a device or system that changes direct current (DC) power into alternating current (AC) power. Used typically in mobile applications such as Class 8 trucks, RVs or Work Trucks to convert battery (DC) power into usable AC power. Need more help? Have questions about our products?

Who makes the best DC to AC power inverter?

EDECOA is one of the world's top leading companies in DC to AC power inverters of higher wattage, both pure sine and modified wave types. It is also an internationally recognized converter brand among the most demanding customers for quality.

What is the purpose of a power inverter?

A power inverter is a device that takes your car or truck battery's direct current (DC) and turns it into alternating current (AC), which then allows you to power a multitude of devices and appliances.

How much DC power does an inverter use?

If you're using an inverter to power some 120v appliances like a microwave or induction burner it takes 10 times the 12v power to make the 120v power. So you need to multiply the amp consumption of those devices by 10 to see how much DC power they'd take. Actually, because the inverter isn't 100% efficient, it's better to multiply by 13.

What does a power inverter do in a car?

A power inverter is a device that takes your car or truck battery's direct current (DC) and turns it into alternating current (AC), which then allows you to power a multitude of devices and appliances. Are power inverters bad for your car?
