How can CANBAT help you build a custom battery pack?

Experienced engineers can help you build custom battery packs for your specific energy storage needs. Canbat is a Canadian battery company specializing in deep cycle and backup applications. Our line of products include sealed lead-acid (SLA), lithium iron phosphate (LiFePO<sub>4</sub>) and lead-carbon batteries.

What is a custom battery pack assembly service?

CMB's custom battery pack assembly services involve evaluating battery chemistries, casing design, and management systems based on customer needs. The process encompasses basic and advanced lithium battery pack design features, each tailored to meet specific requirements.

Do you need a custom enclosure for a battery pack?

Should your battery pack require a custom enclosure, BBM Battery offers the latest in both plastic and battery welding technologies. We also offer the more common version of shrunk wrapped battery packs with custom termination. Whether small or large production runs, BBM Battery can provide a solution for your custom batteries.

What is a custom LiFePO<sub>4</sub> battery pack?

Our custom LiFePO<sub>4</sub> battery packs are made in cylindrical and prismatic formats. LiPo batteries allow for greater flexibility and ensure the perfect fit for vehicles, machinery, and other various devices with unusual dimensions and weight requirements. Why Choose CMB As Your Custom Battery Pack Manufacturer?

Are lithium batteries better than lead-acid batteries?

Lithium batteries have 10 times higher cycle life and are 60% lighter than lead-acid batteries. Canbat is Canada's #1 lithium battery company. Canbat lead carbon batteries are designed with PSOC compatibility for ultra-fast charging capability, efficiency and more than three times as many cycles as standard AGM batteries.
