

Cape Verde Wind Energy Storage Power Station

Where is the largest power station in Cape Verde?

The largest power station in Cape Verde is located in the City of Praia with an installed capacity of 31 MW.

Does Cape Verde have a wind farm?

The Cape Verde government has signed a contract with the domestic partly state-owned wind power operator, Cabeolica, to support its wind farm expansion and battery installation projects in the archipelago nation off the West African coast. Image credits: Alamy Stock Photo.

How can Cape Verde save money on fuel imports?

The company will also add a battery energy storage system (BESS) with a capacity of 9 MW/5 MWh in Santiago and another unit of 6 MW/6 MWh on the island of Sal. The new facilities will contribute to annual cost savings of around CVE 1 billion in fuel imports, according to Cape Verde's minister of industry, trade and energy Alexandre Monteiro.

When will Cape Verde's wind farm expansion start?

Works on the wind farm expansion are due to commence in July 2024. Cape Verde's renewables account for 20% of the total installed capacity in the country, according to ALER, the renewables association of Portuguese-speaking African countries.

How much money will Cabeolica invest in a new wind farm?

The initiative represents an investment of CVE 5 billion (USD 48.2m/EUR 45.3m), financed by the European Investment Bank, African Development Bank and AFC Equity Investments, the government said. Cabeolica will use the funds to add more turbines to its Santiago wind farm in the namesake island to raise its capacity to 22 MW from 9 MW.

Who owns Electra in Cape Verde?

The company's largest shareholder, with a 50% stake, is AFC Equity Investments, a wholly-owned subsidiary of Africa Finance Corporation. Danish fund manager A.P. Moller Capital has owned a 44% stake since 2021. The government of Cape Verde and national utility Electra hold the remaining 6%. (CVE 100 = USD 0.963/EUR 0.907)

This expansion covers five facilities across four islands, combining new wind capacity on Santiago with battery storage systems on Santiago, Sal, Boa Vista, and S#227;o Vicente.

While solar power has an enormous potential as a source of renewable energy, natural conditions in Cape Verde are one of the best in the world for the production of wind energy.

Cape Verde Wind Energy Storage Power Station

The Prime Minister, Ulisses Correia e Silva, inaugurated on 12th September the 5MW Photovoltaic Power Station in Santa Maria, on Sal Island, ... Santiago Pumped Storage will ...

This increase, according to Prime Minister Ulisses Correia e Silva, will help achieve the government's goal of more than 50% of electricity production from ...

Wind independent power producer (IPP), Cabeolica, has obtained approval from the Ministry of Industry, Commerce and Energy of Cape Verde to expand their wind energy ...

Why Cape Verde Needs a Storage Revolution (and Why Flywheels Fit) an archipelago where wind turbines dance with Atlantic breezes by day, and solar panels soak up relentless ...

This will be the country's first integrated renewables project, combining wind power with battery storage. This project was original started in 2012 and this expansion will increase ...

Cabeolica will use the funds to add more turbines to its Santiago wind farm in the namesake island to raise its capacity to 22 MW from 9 MW. ...

Cabeolica will use the funds to add more turbines to its Santiago wind farm in the namesake island to raise its capacity to 22 MW from 9 MW. The company will also add a ...

This increase, according to Prime Minister Ulisses Correia e Silva, will help achieve the government's goal of more than 50% of electricity production from renewable energy by 2030 ...

Wind independent power producer (IPP), Cabeolica, has obtained approval from the Ministry of Industry, Commerce and Energy of Cape Verde to expand their wind energy ...

This new project will finance the expansion of promoter's existing windfarm in Santiago island and the installation of at least two Battery Energy Storage Systems (BESS) in ...

a sun-drenched archipelago where wind turbines dance with ocean breezes and cutting-edge battery systems hum quietly in the background. Welcome to Cape Verde's energy ...

Praia, Sept. 6, 2024 (Lusa) -- Cabo Verde's first pumped storage hydroelectric power station will start operating by 2028. Its power output is equivalent to more than a quarter of the largest ...

Cape Verde boosts its renewable energy with Cabeolica's expansion on Santiago. The \$50 million project will increase wind power in Santiago from 9 to 22 MW. Cabeolica will ...
