How many 5G base stations are there in China?

BEIJING -- The number of 5G base stations in China now exceeds 4.1 million, data from the Ministry of Industry and Information Technology showed Friday. Currently, 5G technologies have been applied in 80 major sectors of the national economy, and the 5G network is covering more rural areas, according to the ministry.

Who makes 5G in China?

While 92 percent of 5G base stations in China had been manufactured by Chinese companies, Ericson and Nokia were the only overseas players accounting for six and two percent of base stations respectively. All companies have generated significant profits from their 5G business in China. Get notified via email when this statistic is updated.

What is the range of a 5G base station?

5G base stations use millimeter waves that are extremely limited in range. Each 5G base station has a range of between 800-1000 feet, or 0.15-0.19 miles. It makes up for its limited range by surpassing 4G in other key areas: data transfer speeds (bandwidth), latency, and capacity.

What is China's 5G network?

In a concerted effort with the government, the country's three big telecommunication companies, China Mobile, China Unicom, and China Telecom, successfully constructed 5G infrastructure in urban areas and key regions, allowing millions of users to access fast and reliable internet connection throughout China.

How many 5G base stations would a cell phone tower support?

Hundreds of 5G base stations will need to be installed to cover the area of a single cell phone tower. Even if just 100 base stations were required, 5G's would support at least 25,000 devices to 4G's 100. 5G smartphones are being released all the time.

How 5G technology is affecting the country's economy?

Currently, 5G technologies have been applied in 80 major sectors of the national economy, and the 5G network is covering more rural areas, according to the ministry. Action will be taken to promote large-scale application of 5G technologies and to boost technological research and development as well as standard formulation, the ministry said.
