

Container board wholesale

What types of linerboard do you offer?

We offer performance engineered linerboard and semi-chem medium, virgin kraft linerboard, 100% recycled linerboard, and white top linerboard. Our mills and shipping ports are strategically located to serve you worldwide.

What is the best material for shipping containers?

Corrugated is the most widely used material for shipping containers because it's versatile, functional, cost effective and sustainable. PCA offers a wide variety of substrates and printing methods. We can handle both small and large volume orders as well as deliver to a single location or multiple points. Common Box Styles

Which liners are best for corrugated containers & display trays?

Choose IP's premium quality white top liners, designed for the printing surface of corrugated containers, display trays and point of purchase (POP) displays. This superior printing surface is perfect for both flexographic and direct print applications. IP's medium sheets allow for high-speed forming and bonding on the corrugator.
