

Costa Rica outdoor power supply parameters

Do I need a power outlet in Costa Rica?

The two most important things to note with the power outlets in Costa Rica is that they are Type A and B. If you come from a country that uses these plug types, you will not need an adapter.

What voltage is used in Costa Rica?

Voltage in Costa Rica The standard voltage for electrical outlets in Costa Rica is between 110 and 120 volts AC. U.S. and Canadian 120 Volt appliances and multiple voltage devices like laptops and cellphones will be fine with Costa Rica's voltage. Remember that plug adapters do not change the voltage, just the physical plug to outlet connection.

What power plugs and outlets are used in Costa Rica?

In Costa Rica, there are two types of power plugs and outlets: Type A and Type B. Both types are used in airports, hotels, restaurants, etc., but they differ in terms of shape. Type A: Type A plugs have two flat prongs on either side of the plug.

What type of outlet does Costa Rica use?

Costa Rica uses outlet types A, B at a voltage of 120V and a frequency of 60 Hz. Plug Compatibility: Type A, Type B Voltage: 120V Frequency: 60 Hz Can North Americans use Electronics in Costa Rica without an Adapter? Yes! North Americans do not need a travel adapter or transformer when traveling to Costa Rica.

Do device plugs work in Costa Rica?

Most device plugs will work with the outlet types in Costa Rica. Also, the voltage in Costa Rica is the same as in North America. Please note: an adapter will be needed if your device plug has a grounding pin and you are trying to use a Type A outlet. For this reason, we always recommend traveling with a universal travel adapter.

Can I use electronic devices in Costa Rica?
