

Purpose of this project is construction of photovoltaic power plant in Zupanja, developing of new services and installation of photovoltaic power plant and providing development activities of ...

The first solar power plant in Croatia entirely owned by citizens, located on the roof of the city market in Krizevci, has been officially put into ...

First PPA model in Croatia. The SOLARIS PONS group stands out in particular in the promotion of the PPA (Power Purchase Agreement) model, which was implemented in 2019, for the first ...

The abundance of solar irradiation in Croatia shall enable photovoltaic energy to become an increasingly cost-competitive power generation source and attract new investments. Croatian ...

The growing popularity of photovoltaic power plants in Croatia has been fueled by numerous incentives at the national, county, and municipal levels, as well as the increasing ...

Scientists have proposed a building-integrated PV system that integrates airflow to cool the panels and control room temperature. The system, which also acts as a shading ...

After Obrovac, HEP will soon officially open the 9.9 MW Donja Dubrava solar power plant in Medimurje, the largest solar power plant in Croatia, which operation has already started. By ...

The document summarizes key information about the photovoltaic (PV) market in Croatia, including: 1) Croatia has high annual global solar irradiation levels around 1,350 kWh/m² and ...

At REScoop we want to highlight these stories to further accelerate the movement towards a cleaner and democratic system. This month, we travel to Krizevci ...

After Obrovac, HEP will soon officially open the 9.9 MW Donja Dubrava solar power plant in Medimurje, the largest solar power plant in Croatia, which ...

The first solar power plant in Croatia entirely owned by citizens, located on the roof of the city market in Krizevci, has been officially put into operation and will generate enough ...

Croatia is expected to surpass 1 GW of solar power by 2025, driven by a significant increase in installations and supportive policies. This expansion is part of the country's broader ...

Of the total global Solar PV capacity, 0.01% is in Croatia. Listed below are the five largest upcoming Solar PV power plants by capacity in Croatia, according to GlobalData's ...

With these potentials, Croatia could become one of the most significant producers of solar energy in the EU. The government plans to install 2500 megawatts of new photovoltaic power by ...

In 2018 and 2019 and in collaboration with the City of Krizevci, ZEZ also successfully implemented Krizevci Solar Roofs, the first community energy projects in Croatia with 30 kW solar PV plants ...

How can Croatia benefit from solar energy? However, to harness this potential effectively, Croatia will need to adopt more ambitious solar energy targets, ensure clear renewable energy ...

Main Product: Charge Controllers, Electric Panel, Mounting System, PV Cable, Solar Battery, Battery Chargers, Solar inverter, Hybrid Inverters, Solar Panel Country / Region: Croatia ...

The growing interest in solar power for self-consumption is evident from the high number of approved grid connection applications, according to Croatia's distribution system ...

Croatia has one of the lowest photovoltaic capacity per inhabitant in Europe (15.6 Wp in 2020). The country will need strong support from local and international partners to develop its solar ...

Today eight out of 10 requests for energy approval are for solar power. The ministry expects the total would reach 8 GW by the end of the year. He stressed there are no ...

The groundbreaking ceremony for Croatia's largest photovoltaic power project, to be constructed by Chinese companies, was held Thursday in Korlat. Croatian Prime Minister ...
