

# Customized flat-plate solar panels for rural areas in South Ossetia

What is a solar flat plate collector?

Solar flat plate collectors are an affordable solution to rising energy costs. Solar flat plates are long lasting,durable,and cost effective. Flat plate collectors are traditionally used in warmer,sunnier climates. For cooler,cloudier areas,and areas that have long,cold winters,you may wish to consider our solar evacuated tube collectors.

What is a solar flat plate water heating system?

A solar flat plate water heating system is a very simple and maintenance free way to immediately reduce your monthly energy costs. Both evacuated tube systems and flat plate solar hot water systems work in a similar manner.

Are your solar flat plate collectors SRCC certified?

All of our solar flat plate collectors are SRCC certified,which is a requirement that allows you to take advantage of the federal 30% tax credit. This substantially reduces the initial cost of your system.

Should I install a solar flat plate system?

Installing a solar flat plate system would mean significantly reducing - or eliminating - these costs. Furthermore, our solar hot water systems qualify for the Federal 30% tax credit, meaning that 30% of the installed cost of your solar hot water system is returned to you the next time you file your taxes.

Should I install a solar flat plate water collector?

Flat plate collectors are traditionally used in warmer,sunnier climates. For cooler,cloudier areas,and areas that have long,cold winters,you may wish to consider our solar evacuated tube collectors. Installing a solar flat plate water heating system for your home can reduce your energy consumption by as much as 40% to 50%.

Why is solar energy a transformative solution for remote rural areas?

Solar energy is a transformative solution for remote rural areas due to its ability to function anywhere despite geographic variations in the resource. Solar panels for standalone home systems,such as solar home systems (SHS),can provide reliable power supply in areas lacking access to centralized power grids.

Findy Solar has been a custom solar solution provider and high efficiency solar panels manufacturer in China since 2006. From the customer"s initial product ...

In the quiet rural parts of India, far from the bustling cities and urban landscapes, lies a world of opportunity. These rural areas, often overlooked in discussions about energy access and ...
