Financial Management. DANISH SUN ENERGY is headquartered in Noerresundby, Aalborg, Denmark and has a development/engineering team in Denmark, Kenya, Latvia, Lithuania and Spain. The key markets for DANISH SUN ENERGY have historically been third world countries with Kenya as the primary focus, and later Bangladesh, Nepal, Lebanon.

What makes a Drivadan greenhouse special?

Drivadan's special construction of steel, aluminum, and glass- including safety glass - provides not only durability but also flexibility. You are not bound by standard sizes; a Drivadan greenhouse can be customized to the exact length, width, and height that fits your garden and your needs.

How does a greenhouse work?

The greenhouse can be equipped with climate control that automatically opens and closes roof windows in the greenhouse controlled by temperature, wind, precipitation, and humidity. This ensures that plant growth receives the best possible conditions.
