

Ecuador's power base station announced

Where does Ecuador's electricity come from?

Ecuador's state-owned electricity company, CELEC EP, imports electricity from neighboring Colombia. CELEC is also increasing diesel purchases from Petroecuador to power its thermal electric power plants. Ecuador had a peak demand of 5,110 MW in May 2025, and according to CENACE, electricity demand grows by 360 MW every year.

How many megawatts of electricity will Ecuador install in 2024?

In June 2024, amidst the electricity crisis, the state-owned Corporación Eléctrica de Ecuador (CELEC) launched five tenders to contract 438 megawatts of new electricity generation, with a reference budget of \$498 million, to be installed between September 2024 and February 2025.

How much electricity does Ecuador need?

Ecuador had a peak demand of 5,110 MW in May 2025, and according to CENACE, electricity demand grows by 360 MW every year. Ecuador's energy shortage could result in a recurrence of power outages, particularly in the dry season of September through December. Ecuador has added minimal generation in recent years.

Will a new Electricity Law attract private investment in Ecuador?

REUTERS/Daniel Tapia/File Photo Purchase Licensing Rights QUITO, Dec 21 (Reuters) - The government of Ecuadorian President Daniel Noboa has proposed a law to the national assembly meant to attract private investment and modernize the country's electricity sector as it confronts power shortages.

What will Ecuador's energy bill do?

The bill would allow public utility companies - who dominate Ecuador's electricity sector - to cede their duties to private providers in exceptional circumstances. It would also allow income tax reductions for companies which implement their own energy generation systems and cancel interest on delinquent energy payments.

What type of energy does Ecuador use?

Ecuador's renewable energy is comprised of hydro power (5,419 MW), biomass (1,550 MW), wind (71 MW), photovoltaic (29 MW), and biogas (11 MW). Hydroelectric power plants are in three regions: coastal (2 provinces), Andes (9 provinces), and Amazon (4 provinces).
