

Features of Swedish photovoltaic container prefabricated cabins

Are container homes a viable option in Sweden?

Sweden, with its focus on sustainability and modern design, has embraced container homes as a practical option for many individuals and families. The price of container homes in Sweden can vary widely based on factors like size, customization, and the materials used.

How much does a container home cost in Sweden?

The price of container homes in Sweden can vary widely based on factors like size, customization, and the materials used. A basic, cost-effective container home may start at around EUR30,000, offering a simple yet functional living space. For those seeking more luxurious and spacious designs, prices can climb to EUR100,000 or more.

Is Sweden a good place to build a modular home?

Known for its commitment to eco-friendly living, Sweden provides the perfect backdrop for cutting-edge container home designs that suit both urban and rural landscapes. With their flexibility, affordability, and modern aesthetics, modular homes are capturing the attention of homeowners and developers alike.

Why should you buy a container house in Sweden?

Sweden's architectural landscape values minimalism and efficiency, making modern container house designs a perfect fit. These homes are not only environmentally friendly but also cater to the growing demand for unique, customizable container homes.

What is a cabin & a modular house?

Our Cabins and Modular homes are designed and adapted for the Nordic climate. We produce modern houses that are environmental friendly, which means that they have low operating cost and will save you money and at the same time be gentle on the environment. We have houses of up to 80m²; where quality and innovation are some of the main features.

Is a shipping container a sustainable choice for Home Builders?

Chosen for its structural integrity and prefabricated build, the shipping container is a sustainable and long-lasting choice for home builders. M^{rs} Tham, architect and founder of M^{rs} Tham Arkitektkontor, recently finished work on a multi-year, shipping container project that's home to a family of five.
