

Haiti Telecom Base Station Company

What is the telecommunication system in Haiti?

The telecommunication system in Haiti is comprised of a single wireline carrier (Tel-eco), and three wireless mobile vendors (Edwards 2010). Teleco is a wireless-based utility providing service through a network similar to those operators throughout the United States. The earthquake caused the collapse of the Teleco building in Port-au-Prince.

How many Internet service providers are there in Haiti?

There are 4 Internet service providers serving the country - NATCOM, Access Haiti, Hainet, and Digicel Haiti. The Haitian telecommunications authority, CONATEL, decided in October 2010 to allow the introduction of 3G services by the mobile telephone service providers.

What cell phone companies are in Haiti?

There were two major cell phone providers: Comcel/Voila, Haitel until 2006 when Digicel, a Denis O'Brien company, began servicing the Haitian network. Later, Natcom purchased 60% of Teleco (the main landline company in Haiti for about 4 decades) in 2011, then it became a direct competitor to Digicel.

What is Tele Haiti?

Tele Haiti is a television broadcasting network providing paid television services with over 140 local and international channels on its network TeleHaiti. In 2012, there were 50,000 main lines in use ranking Haiti 163rd in the world.

Who owns Teleco in Haiti?

Later, Natcom purchased 60% of Teleco (the main landline company in Haiti for about 4 decades) in 2011, then it became a direct competitor to Digicel. Digicel Haiti, an affiliate of the pan-Caribbean Digicel Group won Haiti's first GSM license in June 2005 and launched service in early 2006.

Does Haiti have a mobile phone network?

Despite wide-ranging poverty, Haiti increased its mobile phone coverage rate from 6% to 30% in one year (May 2006 to May 2007). Haiti is now the driving force in mobile phone growth in the Caribbean, while radio remains the primary information medium for most Haitians. [citation needed]
