

How much does it cost to replace a lithium battery with a battery cabinet

How much does it cost to replace a battery on an EV?

EVs from different makers will each come with their own battery replacement costs. Estimates to replace the battery in older Nissan Leafs that are out of warranty range between \$5,500 and \$7,500, while replacement batteries for Teslas start at \$13,000. Battery replacement costs can vary between models.

How much does it cost to replace a battery on a Tesla?

Estimates to replace the battery in older Nissan Leafs that are out of warranty range between \$5,500 and \$7,500, while replacement batteries for Teslas start at \$13,000. Battery replacement costs can vary between models. Here's a look at the battery replacement costs of three different Teslas.

Why do EV batteries cost so much?

Make and model: Some EVs use more expensive battery technologies or larger battery packs, which can significantly increase replacement costs. Battery availability: If a battery is scarce or must be ordered from the manufacturer, costs can rise due to supply constraints and logistics.

How much does a lithium ion EV battery cost?

According to the DOE, the cost of a lithium-ion EV battery was 89 percent lower in 2022 than it was in 2008, and this trend is continuing as production volume increases and battery technology advances. Still, even with the drop in costs for EV battery packs, the cost to replace a battery pack could range from around \$7,000 to nearly \$30,000.

How much does a long range battery replacement cost?

More recently, a Reddit reader added that a Long Range battery replacement (75 kWh) cost them around \$13,000- including labor - in 2023. Another reader gave a similar quote. That still works out to \$173/kWh. However, third party retailers, such as Greentec Auto, offer refurbished OEM packs for \$9,000, which works out to \$120/kWh.

How much does a refurbished battery pack cost?

However, third party retailers, such as Greentec Auto, offer refurbished OEM packs for \$9,000, which works out to \$120/kWh. These packs are warranted for 48 months/50,000 miles. Another third party that refurbishes and replaced packs is re/cell, which offers 250 kWh packs at \$6995 and 340 kWh for \$7495 - \$8999.
