

# How much electricity does a portable power bank provide outdoors

What is the best power bank for camping?

Offline maps. Getting down to less than 10 percent on a camping trip can be a little stressful. The Charge 40 PD was one of the best power banks for camping in the 10,000mAh range during testing, and it has a budget friendly price. The BioLite Charge 20 PD is exactly what you need at the right price.

What size power Bank do I Need?

This will dictate what size power bank you need in terms of battery capacity, which is usually measured in milliamp hours (mAh). To help you out, note that it typically takes 2,500 to 3,500mAh to charge a modern smartphone (though many factors can affect power consumption).

Do you need a power bank for camping?

It only takes one dead phone battery to make you realize the importance of a power bank for camping. Whether it's snapping a picture of the local flora and fauna, setting an alarm for your sunrise hike, or pulling up directions for the drive home, it's essential that you have enough juice to last to the end of your trip.

Can power banks be used as torches?

As well as being impact and water-resistant, power banks specifically designed for the great outdoors often have LED lights, so they can be used as torches. This can be a useful additional feature, as can power banks with integrated charging cables - so you don't have to remember to bring separate cables with you.

Do you need a waterproof power bank?

In damp, humid conditions or on expeditions you might need a waterproof and rugged power bank, which can cope with moisture or even complete immersion as well as bumps and knocks. If so, look for a product with a certified IP (International Protection) rating, which is usually expressed as two letters or numerals, e.g. IPX6 or IP67.

Should you buy a battery charger or a power bank?

Put simply, the larger the rated capacity (in mAh), the more juice the power bank can store - though the trade-off is increased size and weight. So if you're only carrying a smartphone on a day walk and just want a back-up power source, look for a pocket-sized battery charger.

For \$59.99, it's a great value, do-it-all power bank for anyone doing short outdoor trips or just wanting a solid backup they can rely on.
