

How to communicate in Lithuania without a base station

What telecommunications services are available in Lithuania?

Staying connected is essential, especially when adjusting to life in a new country. In Lithuania, the telecommunications infrastructure is modern, reliable, and offers a variety of services to meet your needs. Lithuania has several mobile network operators - Telia, Tele2, and Bite Lietuva.

Where can I find a prepaid SIM card in Lithuania?

Lithuania has several mobile network operators - Telia, Tele2, and Bite Lietuva. All of them offer a wide range of prepaid and contract plans, allowing you to choose the best option based on your budget and communication needs. You can easily find prepaid SIM cards in most supermarkets, convenience stores, and operator shops.

Does Lithuania have a roaming policy?

Lithuania is part of the European Union, so EU roaming regulations apply. These "roam like at home" rules ended roaming charges across much of Europe in 2017, generally letting you use a SIM card from any EU/EEA country across all the others at no extra charge. When it comes to roaming elsewhere in the EU with a Lithuanian SIM, though, beware.

Does Lithuania have free Wi-Fi?

All major operators offer affordable international calling options, and if you're traveling within the European Union, your roaming charges are generally the same as your domestic rates, thanks to EU regulations. Lithuania is known for having some of the fastest Wi-Fi in the world, and you can find free Wi-Fi in most public places.

Should I buy a Tele2 or an eSIM in Lithuania?

I picked Tele2 because it had good coverage and low prices. While this article is about buying physical SIM cards, if you have a recent iPhone or other supported device, the best way to get connected in Lithuania may be to buy an eSIM instead. We've written an explainer of what eSIMs are all about if you're not familiar with them.

Which LTE network is best in Lithuania?

For LTE, you'll find Tele2 and Telia on 800 MHz, 1800 MHz, and 2600 MHz, covering 99% of the population of Lithuania. Bite operates on the same frequencies, with only slightly less coverage. I picked Tele2 because it had good coverage and low prices.
