

Huawei Kazakhstan office building energy storage products

Who is Huawei & how does it work in Kazakhstan?

Since its entry into the Kazakhstani market in 1998, Huawei has collaborated closely with public and private stakeholders, expanding modern communication networks and enabling inclusive connectivity.

Is Huawei aligned with Kazakhstan's national digital development strategies?

Huawei has consistently aligned its operations with Kazakhstan's national digital development strategies. In recent years, the company has signed a series of memoranda of understanding with various government ministries to promote innovation and accelerate the digital economy.

What is Huawei's role in implementing technology solutions?

Beyond policy cooperation, Huawei has played a critical role in implementing tangible technology solutions that address practical challenges. In collaboration with Kazakhstan Temir Zholy (KTZ), the national railway company, Huawei introduced a software-defined wide area network (SD-WAN) in 2024.
