

Industrial Outdoor Power Supply

What is an outdoor Uninterruptible Power Supply?

An outdoor Uninterruptible Power Supply is a power solution designed for critical applications where it's essential that equipment stays running in harsh outdoor environments and significant temperature variations, where an ordinary UPS would fail. Trust TSi Power for these applications.

What products are included in a power supply system?

This includes hardened outdoor enclosures, uninterruptible power supply (UPS) modules, specialty batteries, accessories and generators that can be custom integrated to meet your application.

What are industrial power supplies?

Industrial power supplies are used to convert the AC voltage of your plant into the DC voltage required by the components in your machinery. They come in three main types: linearly regulated power supplies, unregulated power supplies, and switching power supplies.

What is an outdoor industrial UPS?

Outdoor Industrial UPS for Harsh Environments is a growing category of UPS systems that are built to withstand the stresses of an industrial environment. With floor space in data centers and other climate-controlled areas at a premium, more UPS systems are operating in harsh environments that can include vibration, dust, and liquid splatter.

Does TSi power offer outdoor xups?

TSi Power's Outdoor XUPS series of rugged outdoor uninterruptible power supplies is the ideal way to supply backup power in extreme environments. TSi Power offers a comprehensive suite of accessories for the Outdoor XUPS. Mounting brackets, battery heaters, maintenance bypass switches, security solutions, and more are available.

What accessories does TSi power offer?

TSi Power offers a comprehensive suite of accessories for the Outdoor XUPS. Mounting brackets, battery heaters, maintenance bypass switches, security solutions, and more are available. Explore our support materials, documents, and specs.

The Hannibal Outdoor Industrial UPS delivers stable, uninterrupted power in demanding environments. Designed to withstand dust, debris, vibration, and temperature extremes, it's ...
