

Italian Mobile Communications 5G Base Station

Which 5G network is best in Italy?

Iliad: Known for its competitive pricing, Iliad entered the Italian market in 2016 and has been expanding its 5G coverage through a partnership with Wind Tre. TIM (Telecom Italia Mobile): As the leading operator, TIM offers extensive coverage and a variety of services including mobile, Wi-Fi, and television packages.

What is a 5G infrastructure project in Italy?

In 2022, the Italian government announced a 5G infrastructure programme funded by the EU Recovery and Resilience Facility (RRF). Under this proposal, INWIT Infrastructure Wireless, a joint venture between Italian mobile operators Vodafone and TIM, has won six lots of funding with a combined value of EUR 345m (USD 359m).

When did 5G start in Italy?

In 2020 TIM and Ericsson launched 5G connected technologies at the Leonardo da Vinci Fiumicino Airport in Rome. In 2021 the government assigned EUR 2.02bn (USD 2.10bn) from the Italian Recovery and Resilience Plan to the application of the 5G Italy Plan.

Can I use my mobile phone in Italy?

As of 2022, significant cities like Milan, Rome, Turin, Naples, and Bologna have operational 5G networks provided by major operators such as Vodafone, which initiated the country's first 5G services in June 2019. Whether you can use your mobile phone in Italy largely depends on the compatibility with the European GSM network.

What percentage of Italy's population is covered by 5G?

According to the latest estimates/data available, Italian operators (TIM, Vodafone, WindTre and Iliad) claimed to have achieved 90-95% population coverage with 5G services.

Does Italy have a good mobile network?

Italy boasts a well-established mobile infrastructure, with coverage extending to over 90% of the territory. Most urban areas enjoy robust connectivity across 2G, 3G, 4G, and the progressively expanding 5G networks.
