Which power companies are responsible for electricity production in Laos?

Power companies responsible for energy and electricity production in Laos include: Electricite du Laos, Glow Energy (a subsidiary of GDF Suez), Lao Holding State Enterprise and Nam Theun 2 Power Company, a consortium comprising French-owned EDF (40% ownership), Thai (35%) and Lao (25%) entities.

Does Laos sell electricity?

The state-owned electricity company, Electricite du Laos, sells electricity domestically for less than the cost of production. However, due to their growing export market, the Laos energy sector generated 12.8% of the nation's GDP in 2022.

Are coal reserves enough to power Laos power plants?

The government claims that coal reserves adjacent to the plants are sufficient to power the plants for the entire 25-year concession period. The combustion of fossil fuels, particularly coal, is the main contributing factor to the increase in carbon dioxide (CO<sub>2</sub>) emissions in Laos.

How much electricity does Laos generate?

As of 2020, Laos had 10,021 MW of electricity generation capacity, 80% of which came from hydropower. 75% of the electricity generated in Laos is exported, which has earned the country the moniker of 'the battery of Southeast Asia'.

Who owns the Lao holding state enterprise?

The Lao Holding State Enterprise is a 100% state owned enterprise. It was established as a business company in conformity with the Lao Business Law and the Prime Minister's Decree. The Lao Holding State Enterprise is invested solely by the Government of the Lao PDR represented by the Ministry of Finance.
