

After having completed the first divestiture of a 265 MWp PV solar plant with Latvian state-owned utility Latvenergo in Nov 2024, we have now completed the second utility-scale ...

A 84 MW of solar and 26 MW of energy storage portfolio will be installed in Latvia under the Niam-Evecon partnership. Discover the full project details here.

Tianda Energy Storage Platform is a cutting-edge solution designed to optimize energy management, increase grid stability, and enhance the efficiency of renewable energy ...

3 days ago&#0183; Solar energy generation in Latvia has reached market saturation, meaning the overall electricity system should now focus on other types of production, said Sandis Jansons, ...

Energy storage systems are an essential element of Latvia's path towards a sustainable and energy-independent future. The importance of these technologies is being ...

The project is located in the C i rava area of Dienvidkurzeme, Latvia, and plans to construct a 400 megawatt peak photovoltaic power station and a supporting 600 megawatt ...

The solar parks will be located in Valmiera, Kraslava, Madona, and Saldus municipalities, and will integrate solar photovoltaic systems with wind power and battery ...

By interacting with our online customer service, you'll gain a deep understanding of the various Latvia photovoltaic pv systems featured in our extensive catalog, such as high-efficiency ...

Tin oxide for optoelectronic, photovoltaic and energy storage devices... Tin dioxide (SnO 2), the most stable oxide of tin, is a metal oxide semiconductor that finds its use in a number of ...

Targale, Latvia -- On November 1, 2024, Targale Wind Park held its grand opening, unveiling Latvia's first major energy storage facility. Hoymiles, as a key technology ...

This event will bring together key stakeholders from across the region to explore the latest trends in energy storage, with a focus on the increasing integration of energy storage ...

Businesses seeking energy independence amid rising global fuel prices. With longer daylight hours in summer and improving storage systems, solar energy continues to ...

Executive summary Latvia's energy transition is poised for renewed momentum. The IEA peer review of Latvia took place 18-25 September as part of Latvia's ...

List of Latvian solar panel installers - showing companies in Latvia that undertake solar panel installation, including rooftop and standalone solar systems.

The company is mainly engaged in the research and development, production, and sales of photovoltaic modules and materials, photovoltaic power generation systems, and energy ...

Niam Infrastructure and Evecon have formed a partnership for the construction of up to 84 MWp of solar power and 26 MW of energy storage across 11 project sites in Latvia.

The launch of the Targale energy storage system marks a significant leap forward for Latvia's clean energy transition. It enhances the stability of the national grid, strengthens ...

After having completed the first divestiture of a 265 MWp PV solar plant with Latvian state-owned utility Latvenergo in Nov 2024, we have now ...

The new energy storage system marks a major advancement for Latvia, which is working to stabilize its energy supply while supporting sustainable development. Hoymiles is ...

Swedish investment firm Niam and Estonian developer Evecon have formed a partnership to implement solar energy and energy storage projects in Latvia. Under this ...

According to the reporting by various Chinese media outlets that cover news about renewable energy, Tianda New Energy announced in late June that the first phase of its PV ...

The largest wind and solar energy storage project in Mumbai India The contract enables Zelestra to develop a 500 MW hybrid renewable energy project in Solapur, Maharashtra, integrating ...
