

# Mobile power supply for distribution box

How many amps does a power distribution box have?

Our power distribution boxes range from 20-800 Amps and are well known for being durable, long lasting and safe. Load Master (TM) Series portable power distribution boxes are the first in the industry to feature outputs with adjustable current ratings to match specific application loads.

Are Lex portable power distribution boxes waterproof?

Lex products portable power distribution units have NEMA 3R, 3R Weather Resistant or 3R Rainproof environmental ratings depending on the distro box. The indoor distro boxes have a NEMA 1 Indoor environmental rating, like the versatile 100 amp 3 phase PowerHOUSE (TM) Pagoda portable distribution box.

What is a power center & portable power station?

Power centers and portable power stations act as a combination transformer and distribution panel to regulate and distribute power from a generator, temporary power pole, or other 480V AC power source. They are suitable for indoor or outdoor use and provide ground fault circuit interrupters (GFCIs) to help protect against electrical shock.

What are the different types of power distribution units?

Choose from spider boxes, power distribution boxes, power distribution systems, power distribution carts, and more to fit your needs. Affordable, reliable portable power distribution units for installation in any job location. Explore the full selection today.

What are load master TM series portable power distribution boxes?

Load Master (TM) Series portable power distribution boxes are the first in the industry to feature outputs with adjustable current ratings to match specific application loads. These temporary power distribution boxes feature 1, 3 or 4 adjustable circuit breakers, with a range of amperage and voltage ratings.

What is a portable power distribution cart?

Portable Power Distribution Carts, also known as our Original Series of power distribution boxes, provide a safe way to distribute power to power tools and other equipment that requires power on a job site or other location where utility power is not available or turned off.
