

Morocco engages in new energy battery storage

Is Morocco preparing to launch a 1.6 GW Bess project?

Morocco is preparing to launch a massive foray into clean energy with its ambitious 1.6 GW BESS projects. The National Office for Electricity and Drinking Water (ONEE) is expected to invite tenders for battery energy storage systems (BESS) totaling nearly 1,600MW.

What is Morocco's energy strategy?

... The Ministry of Energy, Mining, and Environment oversees the development and implementation of the national strategy for the development of renewable energy ... The Kingdom of Morocco has adopted since 2009, under the High Royal Orientations, an energy strategy that has set the goal of increasing the power of renewable energy ...

What are Morocco's Bess projects?

Morocco's 1.6 GW BESS projects represent a key step in its clean energy ambitions. The facilities will electrify key urban areas and firm up the grid. Although the initial focus is in the northwest, the government aims nationwide. Furthermore, the projects align with Morocco's ambitions to generate 52% of its electricity from renewables by 2030.

Middle East Energy is your path to the region's rapidly expanding battery and energy storage market -- a platform where you can unlock new revenue streams, meet qualified buyers, and ...

On May 20, 2025, the Masen Agency announced a new pilot project called the "Morocco Energy Storage Testbed Project," validated by the World Bank. Deployed at the ...
