

# New independent energy storage project in Argentina

Does Argentina have a battery energy storage system?

Argentina has taken a major step toward modernizing its energy infrastructure with the launch of a 500 MW battery energy storage system (BESS) tender under the AlmaGBA program.

Does Argentina have a battery storage tender?

Argentina has opened a \$500 million battery storage tender aimed at adding 500 MW of new energy storage capacity in the Buenos Aires metropolitan area. The AlmaGBA program, managed by CAMMESA, offers long-term contracts with fixed payments and financial guarantees to attract developers.

Will Argentina integrate new electricity storage infrastructure into urban distribution networks?

This national and international open call, part of Resolution SE 67/2025, marks Argentina's first large-scale effort to integrate new electricity storage infrastructure into urban distribution networks.

Why is Argentina a good stance on energy storage?

In Argentina, the stance provides a good lesson to the European stakeholders, especially in the commercial and industrial segments of energy storage. Emerging markets can present both local and foreign players by developing tenders that are investment appropriate and clear technically and financially secured.

Argentina's Wholesale Electricity Market Administrator (CAMMESA) has published the contract template for the "AlmaGBA Storage" tender, which aims to add up to 500 MW of ...

According to Shenzhen Sunwoda Smart Energy Co., Ltd. (hereinafter referred to as Sunwoda Smart Energy), on the morning of March 11, the 200MW/400MWh grid-side ...

This national and international open call, part of Resolution SE 67/2025, marks Argentina's first large-scale effort to integrate new electricity storage infrastructure into urban ...

Spanish independent power producer (IPP) Grenergy has secured a 1.25GWh energy storage supply agreement with CATL for its Oasis de Atacama project in Chile. The ...

Argentina launches a 500 MW battery storage auction to boost AMBA's energy reliability, supporting a sustainable shift to renewable power and modernizing the energy sector.

The project, involving distributors Edenor and Edesur, requires a \$10,000 per MW bank guarantee and aims to strengthen AMBA's grid. The robust bidding response ...

Why Energy Storage Matters for Argentina's Renewable Future Argentina, a country blessed with abundant
