

Nissan pack battery

Will Nissan sell new battery packs?

The problem has always been and continues to be demand far outstripping the supply. Nissan won't sell new battery packs on their own, nor will they allow their dealers to upgrade older LEAFs with their newer packs (for example putting a 40kWh pack in a car that originally had a 24kWh battery).

Do you use genuine Nissan Leaf batteries?

We only use Genuine Nissan Leaf Modules in our packs, these are not kits from overseas. Every battery that we sell is road tested prior to sale and installation to ensure component functionality and maximum performance. Want to keep your old battery?

How long does a Nissan Leaf battery pack last?

Comes with Unlimited Mileage Warranty for 24 - 36 months. All Nissan Leaf battery packs include modules that are individually tested at or above industry standards to ensure capacity matched and balanced packs. We only use Genuine Nissan Leaf Modules in our packs, these are not kits from overseas.

Are there genuine Nissan car batteries available?

We offer a full selection of genuine Nissan Car Batteries, engineered specifically to restore factory performance. You can shop for OEM Nissan Car Batteries at wholesale prices by selecting your vehicle and engine type. For example: Altima (2009-2013, 2002-2006) - Base, Hybrid, S, SE, SE-R, SL, SR - 4 Cyl 2.5L, 6 Cyl 3.5L.

What is a lithium-ion battery cover on a Nissan Leaf?

First, terms of the Lithium-Ion Battery Coverage are mainly concerned with the original components and installation of the Leaf's battery pack. For things like materials defects and poor workmanship, this portion of the LEAF's warranty guarantees battery replacement for up to 8 years or 100,000 miles.

Can you replace a 40 kWh battery on a Nissan Leaf?

For a Nissan LEAF with a 40 kWh battery pack, replacement with a fresh 40 kWh is usually the best way to go. Upgrading to the 62 kWh battery pack is possible, but the labor cost is likely to be higher since the shape and weight of the 62 kWh pack changed from previous pack profiles.

Nissan won't sell new battery packs on their own, nor will they allow their dealers to upgrade older LEAFs with their newer packs (for example putting a 40kWh pack in a car that originally had a ...
