

Who is Nordic batteries?

Nordic Batteries is a company that assemble and custom lithium battery and energy storage solutions. With market and technical expertise, it provides solutions that drive the green transition in key industries such as marine and demanding industrial applications.

What products does Nordic batteries offer?

Nordic Batteries' technology portfolio centers on two main product lines: ePOWER and eENERGY modules. The ePOWER series delivers high-power output for demanding industrial applications, while the eENERGY modules provide extended duration energy storage capabilities.

What makes Nordic batteries a sustainable brand?

Nordic Batteries also emphasizes sustainability in their production methods, using renewable energy sources throughout their manufacturing processes. Their battery designs consider the complete lifecycle, including potential second-life applications and eventual recycling, supporting circular economy principles.

Who invested in Nordic batteries?

Nordic Batteries has received substantial investment from several Norwegian entities. Kongsberg Innovation, through its Pre-Såkorn Fond, provides significant financial backing and technical support. Vardar AS, an energy group owned by former Buskerud county municipalities, has invested in the company.

Are Nordic batteries looking for a development engineer?

Nordic Batteries are seeking a development engineer for mechanical construction and system design. Factor 47 is operative! The pilot line where Nordic Batteries will produce their first battery modules is now officially open after the visit from former Prime Minister Erna Solberg where she cut the banner to kick it off.

Where are Northvolt batteries made?

Northvolt is now one of the largest battery companies in Europe. They operate a main plant in Skellefteå (Northvolt Ett) and developed a battery recycling facility called Revolt. The company is also expanding its production network to Germany and Canada, making them one of the top 10 battery manufacturers in Sweden.

Operating in 12 European countries, the solar energy company Nordic Solar is investing heavily in integrating battery storage into its portfolio ...

Nordic Batteries is a company that assemble and custom lithium battery and energy storage solutions. With market and technical expertise, it provides solutions that drive the green ...

Nordic Batteries announces it is entering into a strategic partnership with Morrow Batteries and Eldrift to develop complete battery packs for mobile and ...

We develop battery modules, racks and energy storage systems designed to power industrial applications across challenging sectors, including construction, maritime, defence, and grid ...

Nordic Batteries AS, founded in 2014 in Norway, specializes in advanced battery modules, packs, and energy storage systems for industrial sectors including construction, maritime, defense, ...

Operating in 12 European countries, the solar energy company Nordic Solar is investing heavily in integrating battery storage into its portfolio of solar park projects and is ...

Swedish energy storage companies are quietly revolutionizing how we store and distribute power, blending sustainability with Scandinavian practicality. From zinc-ion ...

Nordic Booster is a leading supplier of mobile fast chargers for heavy vehicles. We also deliver complete energy storage systems for industry. Together with our world-renowned battery ...

At HST Nordic (559519-9372), we engineer, procure, and construct high-impact renewable energy and industrial projects across Sweden and beyond. As part of a globally recognized industrial ...

Vaasa offers opportunities for the production of emission-free products. "In Vaasa we aim to be a carbon neutral city by 202x." Great need for green batteries in the region The companies in ...

Our battery energy storage solutions are designed, developed, and manufactured in Finland. From inverters to control and protection systems, everything is crafted locally to ensure high ...

Nordic Batteries designs and manufactures high-power and high-energy battery modules, BMS and BESS products. The company bridges the gap between battery cell ...

Image: Ingrid Capacity. Developer Ingrid Capacity and investor SEB Nordic Energy have partnered to build 13 battery energy storage system (BESS) projects in southern Sweden ...

Finland-headquartered clean energy solutions provider Fortum is to deploy the largest battery so far in the Nordic region, a 6.2MWh system at a ...

The project is the largest in Sweden which is under construction. Image: Neoen. Independent power producer (IPP) Neoen and system integrator Nidec have started ...

These top 10 battery manufacturers in Sweden such as Northvolt, Alelion, and Volvo Energy show how battery technology can be developed not only for electric vehicles, but ...

We present the largest, most influential battery manufacturers, exploring their market positions & strategies that have enabled them to dominate the industry.

Stockholm. 2024.12.18 - Helios Nordic Energy, a leader in utility PV and BESS project development in the Nordics, has successfully completed the sale of a ...

Elinor Batteries is establishing a 40 GWh sustainable Lithium Iron Phosphate battery plant near Trondheim, Norway, set to begin in 2026. Utilizing 100% renewable energy and Nordic ...

Nordic energy storage battery manufacturer
