

Outdoor Power Supply Assembly Plant

What is outdoor power solutions?

Outdoor Power Solutions deliver power, data, A/V connectivity and mobile charging to make the most of your outdoor spaces. The Outdoor Rooftop Box is a revolutionary product that provides convenient power access on raised rooftop decks without extension cords. All the power you need--for outside spaces.

What is a substation power center?

A substation power center is a custom-designed sheltered aisle, outdoor metal-clad switchgear enclosure for utility and substation applications that combines distribution and controls into one enclosure. There are powerful operational and integration efficiencies of this solution.

What is a prefabricated power system?

Prefabricated assemblies integrate multiple pieces of electrical equipment into an enclosure or skid and can be designed for stand-alone construction. These prebuilt power systems increase project productivity by helping to shorten timelines, simplify project management and reduce installation time and cost.

What is a prefabricated electrical assembly?

A prefabricated electrical assembly is a fully customizable and factory-integrated solution for electrical control and power distribution. Prefabricated assemblies integrate multiple pieces of electrical equipment into an enclosure or skid and can be designed for stand-alone construction.

Why should you choose a prefabricated power distribution center?

We deliver advantages that other producers just can't match: Prefabricated power distribution centers offer a ready-to-use, plug-and-play solution by lowering lead times by up to 50 percent compared to conventional stick-built construction. For civil engineering, these PDC buildings do not require complex techniques.

Does TSI power offer outdoor xups?
