

# Outdoor smart base station box

What is Xiaomi outdoor camera base station?

The Xiaomi Outdoor Camera Base Station is the perfect foundation for creating a reliable and efficient outdoor surveillance system. Designed to withstand extreme temperatures between -10°C and 45°C, it delivers consistent performance regardless of weather conditions.

Why should a base station be placed indoors?

Positioning the base station indoors also mitigates the challenge of retrieving video evidence if the outdoor cameras are tampered with, guaranteeing stable, secure, and uninterrupted recording. \*The base station supports direct storage using SD cards ranging from 16GB to 256GB.

What is the range of the sbs50 base station?

With a wireless range of 1700ft (500m) for most devices and up to 2200ft (600m) for the driveway alarm, the SBS50 Base Station guarantees reliable connectivity across your property, making it ideal for both small and large homes.

How much storage does the base station support?

\*The base station supports direct storage using SD cards ranging from 16GB to 256GB. A wireless relay bridge amplifies signal strength and extends reach, ensuring smooth HD playback. The base station is effortless to install, providing extensive coverage with minimal restrictions.

What is the TP-Link outdoor wireless base station?

The TP-LINK Outdoor Wireless Base Station pairs professional performance with user-friendly design, making it the perfect solution for both business and home users. Two external RP-SMA antenna interfaces allow the Outdoor Wireless Base Station to integrate seamlessly with TP-LINK's line of sector and dish antennas.

How does a base station work?

The base station is effortless to install, providing extensive coverage with minimal restrictions. When a target event is detected within the monitored area, the base station will promptly sound an alarm to alert the user, ensuring effective risk management.

Discover if you can (or should) use Wyze Outdoor Camera without base station, and explore workarounds, setup steps, benefits, and drawbacks.

When combined with Outdoor MotionViewers (bought separately), your system can help keep unwanted visitors away by working with your other smart devices to simulate an occupied home.
