

# Power Control Portable

Why should you buy a portable power station?

Bring big backup power with you with these expert-recommended portable power stations, which can store enough power to charge electronics, appliances, and more.

Which portable power station should I buy?

If you want a portable power station that's lighter than our upgrade pick, often costs less, and adds a small light, and you don't mind that it has less power, a single handle, and fewer outlets and charging ports: Get the Jackery Explorer 880. It weighs 21.8 pounds, and has an ergonomic handle on top and a small light built into the side.

What are the best portable power products?

EcoFlow is a well-known name in the portable power industry. Their products are known for fast charging and long battery life. The EcoFlow DELTA series, in particular, is popular among outdoor enthusiasts. Jackery remains a strong competitor. Their Explorer series is user-friendly and durable. It's perfect for camping and emergency backup.

Which battery is best for a portable power station?

These days most portable power stations, including all those we recommend here, use LiFePO4 batteries, which are capable of holding far more cycles, which is the number of times a battery goes through a complete discharge and recharge, than older lithium-ion batteries while also being less likely to combust.
