

Power generation container sales

What is a containerised generator?

Our Containerised Generators deliver robust, high-capacity power from 300-3,000 kVA in secure, weather-resistant enclosures. Designed for challenging environments and critical applications, they offer noise reduction, easy transport, and bespoke configuration to meet your site's exact needs.

Are containerized generators reliable?

Years of use in the rental, oil and gas, mining and other heavy-duty industries have tested the reliability, usability and durability of our containerized generators. Our primary design challenges in developing this line of containerized generators were usability, reliability and functionality for the end user.

Which genset containers are available?

All genset containers are also available with an option for -40°C and most variants can be upgraded for +45°C. A broad range of options, both mechanical and electrical, are available to ensure that our containers meet the project requirements. For example, we offer several heat recovery configurations and exhaust after treatment systems.

What size generator container do I Need?

Our generator containers for Type 2, 3, and 4 gas engines have a standard 40-foot length. Width and height depend on engine type, the application (power generation only or CHP) and ambient conditions. Customized sizes to accommodate special project requirements are available on request.

Why should you choose a containerised generator?

Containerised Generators are trusted across industries where reliability and resilience are non-negotiable, such as Healthcare and Rail infrastructure. Every unit can be tailored to your project with options for fuel type, noise attenuation, and space-saving layout.

Can you put a generator in a container?

Generators can be put into containers. There are a number of benefits to doing this including: Easier transportation and installation making them ideal for temporary or remote applications. They are more secure as typically they are lockable which prevents unauthorised access. Do I need to service my power system? Put simply, yes.

Search for used power generation containers. Find Across International, Caterpillar, GE, Gaumer, Hobart, Illumina, Mantis, and Zimmer for sale on Machinio.

Our Containerised Generators deliver robust, high-capacity power from 300-3,000 kVA in secure, weather-resistant enclosures. Designed for challenging environments and critical applications, ...

Power generation container sales

Each manufactured containerised generator is acoustically lined to achieve the external sound levels required at your site. We build each container from scratch with special louvres for free ...

A generator can be an important addition to your refrigerated container. A diesel generator is able to run a container for up to 5 days without the need to refill fuel. At MT Container GmbH in ...

Gulfstream Container is a one- stop shop for all of your power systems needs. We manufacture our enclosures, UL listed fuel tanks, and custom accessories in ...

Tradecorp supplies high-quality new and used shipping containers for sale throughout the Americas. Our experienced container consultants can walk you through the purchase process ...

Renewable energy, solar power, hydroelectric, or harnessed by the wind, energy and power sources abound. Interport has worked with various power generation and energy customers to ...

USP& E sells, ships and services both new and used HFO generators and containerized HFO generators and gas turbine power plants as well as used ...

Jenbacher offers containerized generator sets based on our Type 2, 3, 4, and 6 gas engines. Leveraging the expertise acquired during several decades with more than 3,000 containerized ...

A containerised diesel generator is a complete power unit housed in a modified ISO shipping container, offering long runtimes, noise control, and protection ...

Renewable energy, solar power, hydroelectric, or harnessed by the wind, energy and power sources abound. Interport has worked with various power ...

Looking to build off-grid power solutions with shipping containers? Boxhub is the leading provider of new and used shipping containers for solar panel installations and battery storage.

Providing fast, reliable EPC and O& M solutions for surplus power plant equipment, with affordable, ready-to-deploy diesel, natural gas, HFO, & hybrid ...

Gulfstream Container is a one- stop shop for all of your power systems needs. We manufacture our enclosures, UL listed fuel tanks, and custom accessories in house.

The 50 kWe Power Pallet 30 Container System uses our two of our PP30 for a complete biomass power generation solution that converts woody biomass into electricity. It is a compact and ...

Global Support & Service Network - Reliable after-sales support and spare parts availability. Scalable for Large-Scale Projects - Suitable for standalone or ...

Power generation container sales

We've long had a reputation as a provider of never-before-seen power products -- and will offer you all the engineering and manufacturing support you need to customize your generator ...
