

Is Qatar a good place to develop solar energy?

Qatar boasts the ideal conditions for developing solar energy with its exceptional sunshine and vast unoccupied spaces. This is where the Al Kharsaah solar power plant, developed by TotalEnergies and its partners QatarEnergy and Marubeni, was inaugurated in October 2022.

What is Qatar's first large-scale solar power generation project?

This Marubeni investment-backed plant, which was inaugurated on October 18, is the first large-scale solar power generation project in Qatar, with a maximum output of 800 MW. The power generated will be sold to Qatar's General Electricity & Water Corporation Kahramaa under a long-term contract of 25 years.

Does Qatar have a solar power plant?

Qatar's Al Kharsaah solar power plant is Marubeni's third large-scale solar project in the region, following the company's first two large-scale solar projects in the United Arab Emirates (UAE) and Oman. What does the Al Kharsaah solar power plant mean for Qatar?

Who owns Qatar power plant?

It is owned by Siraj Energy, Marubeni and Total. It is under the build, own, operate and transfer (BOOT) model for a period of 25 years. The licence to own and operate the project will expire after the 25-year term and the power plant's ownership will be transferred to Qatar General Electricity & Water Corporation Kahramaa.

How much does solar power cost in the Middle East?

The selling price of electricity is about 1.5 to 1.7 cents per kilowatt hour, which is approximately 10% of the price in Japan. By taking full advantage of its abundant solar radiation and economies of scale of land, the Middle East is becoming more and more competitive in the solar power generation field.

Why is Qatar focusing on Human Resource Development?

"Qatar's abundant oil and natural gas are valuable export resources for earning foreign currency, so the country is looking to diversify power sources to reduce domestic consumption of these resources as much as possible," he explains. The second key area is contributing human resource development.

Achieve a target of 200 MW of distributed renewable energy generation, which will allow customers to install solar photovoltaic systems in their facilities for ...

Qatar boasts the ideal conditions for developing solar energy with its exceptional sunshine and vast unoccupied spaces. This is where the Al ...
