

Serbia is preparing a spatial plan for six solar power plants with battery storage within a strategic partnership, for which it selected Hyundai ...

Turkish renewable energy producer Fortis Energy said it will develop a 110 MWp solar photovoltaic (PV) plant with an integrated 31.2 MWh ...

The first works on the project in Serbia for solar power plants of 1 GW in total and batteries is expected by early 2026, Minister Dubravka Dedovic Handanovic said.

Investing in renewable energy integration and battery storage in Serbia presents opportunities to create a more sustainable and reliable energy system. It can contribute to the ...

Turkey-based developer and IPP Fortis Energy has acquired a solar and battery energy storage system (BESS) project in Serbia. The company plans to begin construction at the project, in ...

The Serbian government has called for the development of a spatial plan for six large-scale solar plants with a cumulative capacity of 1 GW that will be colocated with two ...

UGT Renewables is working with Serbia's EPS to provide a series of self-balanced utility-scale solar projects, including battery storage, to every corner ...

Croatia's Ministry of Environmental Protection and Green Transition has initiated the process to determine if a full environmental impact study is necessary for the proposed 99 MW ...

Serbia reveals sites for PV plants of 1 GW in total with batteries The Government of Serbia issued a decision to develop a special purpose spatial plan for a group of solar power plants of a total ...

Serbia is preparing a spatial plan for six solar power plants with battery storage within a strategic partnership, for which it selected Hyundai Engineering and UGT Renewables.

The Serbian Government has approved the development of a spatial plan for constructing large-capacity self-balancing solar power plants paired with battery energy ...

The solar energy storage battery industry in Serbia is thriving, driven by innovation, geographical advantages, and firm government support. As countries strive towards sustainable energy ...

Serbia seeking partner for 1 GW of solar, 200 MW battery storage The Serbian government is seeking a strategic partner to develop at least five PV plants with a cumulative capacity of 1 ...

The Government of Serbia has signed an agreement with the Hyundai Engineering-UGT Renewables consortium on building solar power plants with a total ...

UGT Renewables is working with Serbia's EPS to provide a series of self-balanced utility-scale solar projects, including battery storage, to every corner of Serbia.

The Government of Serbia has decided to develop a special purpose spatial plan for a group of solar power plants totaling 1 GW in connection capacity, which will include ...

An implementation agreement is in place between Serbia's Ministry of Mining and Energy, utility company Elektroprivreda Srbije (EPS) and a consortium of Hyundai Engineering ...

Fortis Energy acquired a 180 MW photovoltaic project in Serbia. It said it would include 36 MWh of battery capacity. One of the biggest solar power investments with energy ...

Serbia plans to build solar power plants, wind farms, and pumped-storage hydropower plants, but also gas-fired power plants, energy storage batteries, and hydrogen facilities, in order to ...

The Serbian Government has approved the development of a spatial plan for constructing large-capacity self-balancing solar power plants paired with battery energy storage systems.

Last September, Solaris launched another hybrid plant in Pernik, combining a 32 MW solar installation with 61 MWh of storage. The Vratsa facility continues the company's ...
