

Sierra Leone Telecommunications Base Station Inverter 372KWh

What's happening in Sierra Leone's telecom sector?

Sierra Leone's telecom sector is gradually emerging from a long period of war and political chaos. The World Bank recently approved a \$50 million grant to extend fibre infrastructure, indicating a shift in international lenders' attitudes towards funding national projects.

Will Sierra Leone be a partner in the Amilcar Cabral submarine cable?

Considerable progress is now being made, with Sierra Leone being a partner in the Amilcar Cabral submarine cable which will connect several coastal countries in the region. The terrestrial fibre backbone had been started as late as 2019, while the cable link to neighbouring Guinea was not completed until February 2020.

Why are mobile services crucial in Sierra Leone?

In Sierra Leone, mobile services have been the main driver in the telecom sector due to the poor state of the fixed-line infrastructure. This is evident in the launch of a 5G pilot service by Orange Sierra Leone in September 2023.

What are Africell's plans in Sierra Leone?

Africell is planning to build a new backbone network to meet data traffic demand and has secured a loan to expand services to rural areas in Sierra Leone.

How can Sierra Leone become a digital nation?

Sierra Leone is taking steps to become a digital nation. Technical support is being provided by Smart Africa and the Indian Ministry of Electronics and Information Technology. Smart Africa opened a Digital Academy in Freetown in early 2023, while India has started a three-year program to help Sierra Leone adopt digital technologies and bring the populace into the digital age.

Who is helping Sierra Leone adopt digital technologies?

Technical support is being provided by Smart Africa and the Indian Ministry of Electronics and Information Technology to help Sierra Leone adopt digital technologies and bring the populace into the digital age. Smart Africa opened a Digital Academy in Freetown in early 2023, and the Indian ministry has started a three-year program for this purpose.
