

Solar Inverter Sellers

What is a solar inverter?

The solar inverter is one of the most important parts of a solar system and is often overlooked by those looking to buy solar energy. This review highlights the best inverters from the world's leading manufacturers to ensure your solar system operates trouble-free for many years.

Which solar inverter should I buy in 2025?

Every solar system needs some kind of inverter to convert sunlight into usable electricity. CNET experts have compared the most popular solar inverters' specs, warranties, prices and more. The SolarEdge Home Wave Inverter is our top pick in 2025.

Where can I buy a solar inverter?

In the United States, there are several reputable places where customers purchase solar panel inverters for their solar panels, including The Home Depot, SolarEdge, and A1SolarStore. The Home Depot offers a range of solar inverters suitable for various applications such as cabins, RVs, backup power, and residential use.

How do I choose the best solar inverter?

Choosing the best solar inverter comes down to efficiency, voltage performance, warranties, and price. We looked at all these factors in dozens of models featured on the EnergySage Marketplace to determine the best inverters of 2025. Five brands stood out: SolarEdge, Tigo, Enphase, Hoymiles, and Schneider Electric.

Does Home Depot sell solar inverters?

The Home Depot offers a range of solar inverters suitable for various applications such as cabins, RVs, backup power, and residential use. They have a variety of options, including pure sine wave inverters and inverters with different wattage capacities, which ensure compatibility with a wide range of solar panel setups.

How much does a solar inverter cost?

There is a considerable price difference between the hundreds of solar inverters available. For example, an entry-level 5kW inverter can start at as little as \$650, while a premium quality 10kW inverter with a 10-year warranty may cost up to \$2400.
