

Solar Outdoor Front and Back Site Energy

How do backyard solar panels work?

In a pole mount system, the panels are suspended on a pole, elevating them from the ground. That elevation makes them ideal for a solar tracking system. That's where panels adjust their angle automatically to follow the sun's movements and maximize production. So in many cases, backyard solar panels can open up a range of new options to consider.

Should I choose a roof or a ground-mounted solar system?

If your roof works for solar and can fit enough solar panels to meet your energy needs, it's usually best to choose rooftop solar panels. If you need a really large system that won't fit on your roof and you have enough open land, opt for ground-mounted panels. Each property is unique...

Where can a ground-mounted solar panel be installed?

Ground-mounted solar panels can be installed anywhere with good sun exposure and sufficient amounts of open space - a minimum of 350 square feet is usually required. Ground-mounted solar panels are also known as backyard solar panels, free-standing solar panels, and ground-mount PV systems.

Are ground-mounted solar panels a good alternative to rooftop solar?

Ground-mounted solar panels are a great alternative for customers who want solar - but don't have a roof that's suitable for them. On top of being an alternative to rooftop solar, ground-mounted solar systems can be used on farms, in your garden, and more!

Why should you choose a ground-mounted solar system?

With a ground-mounted system, you can choose the orientation of your solar panels to increase energy production. Ground-mounted systems also tend to operate more efficiently because they have more air circulation beneath the panels, allowing them to stay cool. Ground-mounted solar panels are easily accessible for cleaning and maintenance.

Are ground-mounted solar panels right for You?

You can even install tracking systems so your solar panels follow the sun throughout the day. Even with a big yard, ground-mounted solar setups aren't for everyone.
