

Are tamesol solar panels made in Spain?

Product Range and Advantage: Tamesol offers a variety of solar panels made in Spain, ranging from monocrystalline to polycrystalline. Their solar panels are known for high efficiency, durability, and optimal performance even in low light conditions.

Are solar energy solutions a viable option in Spain?

Here's why solar energy solutions are an appealing proposition in Spain: The Abundant Sunlight: Spain is blessed with ample sunshine, averaging over 2,500 sunlight hours each year. Utilizing solar panels under such optimal conditions maximizes energy production, thereby significantly reducing electricity bills.

What certifications do solar panels have in Spain?

Another important certification is the IEC 61730 which deals with the safety of the panel. It ensures the solar panel has been tested for mechanical stress and safety from fire hazards. Additionally, Spain also follows the UNE 206007 IN standard specifically for self-consumption photovoltaic systems.

Are solar panels safe in Spain?

In Spain, solar panels are subject to various certifications to ensure their efficiency and safety. One such certification is the IEC 61215, which certifies that the solar panels have undergone testing for performance under different climate conditions like rain, high temperature, and high humidity.
