The cost varies based on type and capacity, ranging from \$500 to \$10,000+. 2. Which solar inverter is best for home use? Fronius Primo, SMA Sunny Boy, and Enphase IQ 7A are among the best options.

Which solar inverter should I buy in 2025?

Every solar system needs some kind of inverter to convert sunlight into usable electricity. CNET experts have compared the most popular solar inverters' specs, warranties, prices and more. The SolarEdge Home Wave Inverter is our top pick in 2025.

How long does a solar inverter last?

One of the more expensive inverters on the market but still lasted only one year. Find the best solar inverter for your home based on expert and consumer reviews. Inverters maximize solar panel output and convert power from DC to AC, making them an integral part of home solar power systems.

What is a solar inverter?

A solar inverter is an essential part of a solar-panel system. The inverter turns the direct current (DC) electricity generated by solar panels into the alternating current (AC) electricity needed for most appliances and home electrical needs.

Which solar inverter is best?

CNET experts have compared the most popular solar inverters' specs, warranties, prices and more. The SolarEdge Home Wave Inverter is our top pick in 2025. It was the most efficient inverter we looked at, letting you use a larger percentage of the energy your solar panels generate. This translates to less and more power to use around the house.

How do I choose the right solar inverter type?

There are two categories to consider when deciding on the right solar inverter type: the solar inverter technology, and the type of solar power system the inverter is for. String inverter: A string inverter is a single, standalone unit that converts power from a whole string (or strings) of solar panels.

Explore the costs of solar inverters for homeowners, including types, installation, and long-term savings to make informed energy choices.
