

# Super low price for home solar

What are the cheapest solar panels?

Many of the EnergySage Buyer's Guide's most affordable solar panel brands also produce some of the best solar panels. Here are our top picks for the best cheap solar panels based on the average cost per watt and performance. At just \$2.36 per watt, AXITEC offers the cheapest solar panels per watt on our list.

What are the best low-cost solar panels?

Canadian Solar has the best selection of cheap solar panels of any manufacturer on this list. Here's a quick look at some of its more attractive low-cost panels. TOPHiKu6: The TOPHiKu6 panels have the second-highest efficiency rating of Canadian Solar's panel options. These are all black, but they do have visible grid lines.

Are low-cost solar panels worth it?

However, there is still a decent range in price between the cheapest solar panels and the most expensive options. Whether you're a homeowner who's trying to work within a fixed budget or you're a frugal shopper who appreciates a great value, low-cost solar panels may very well be the best option for your home.

How do I choose the most affordable solar panels?

The most affordable solar panels for you will likely be a combination of those attributes, rather than the actual number on the price tag. An excellent place to start looking for the best deal is to start with inexpensive solar panels and work your way through the numerous decisions you'll eventually make when choosing your system.

Are solar panels affordable?

Solar panel affordability continues to increase thanks to falling prices, incentives, rebates, and flexible financing options. The solar panel with the cheapest price tag may not be the most cost-effective option in the long term. Consider efficiency, performance, and warranties when comparing your options.

Which solar panels are best for your home?

With the lower prices comes lower efficiency, however. It may be tempting to go with thin-film panels because they are the most affordable, but monocrystalline or polycrystalline panels are typically better for residential solar energy systems.
