

Which energy storage projects have been commissioned in Switzerland?

Axpo commissioned its BESS in February this year while utility Thurplus commissioned a 3MW system in September last year. But Switzerland was the location for one of the largest energy storage projects commissioned in recent years, a 20GWh pumped hydro energy storage (PHES) unit which started operations in June 2022 in the Canton of Valais.

Where in Switzerland will Primeo energy install a battery storage system?

In Kappel, in the canton of Solothurn, we will install one of the largest battery storage systems in Switzerland with a total capacity of 65 megawatt hours. Primeo Energie will use the stand-alone storage system to make energy more flexible and store electricity temporarily and withdraw it again when it is needed.

How will a large-scale storage system help the Swiss power grid?

In this way, the system will help to stabilise the Swiss power grid. With this large-scale storage system, we are making a decisive contribution to the implementation of Switzerland's Energy Strategy 2050, which aims to convert 100 per cent of its energy supply to renewable energies by 2050.

How will Primeo energy contribute to the Swiss energy transition?

We are delighted to be taking a significant step in the Swiss energy transition together with Primeo Energie. In Kappel, in the canton of Solothurn, we will install one of the largest battery storage systems in Switzerland with a total capacity of 65 megawatt hours.

Is MW storage the country's largest battery storage project?

MW Storage is a developer of BESS projects which is also active in the German market, with a 100MW/200MWh project underway that it claimed is the country's largest. The inauguration ceremony for the BESS project. Image: EWS AG. EWS AG and MW Storage have expanded a battery storage project in Switzerland to 28MW, making it the country's largest.

Does Switzerland's new large-scale battery support the Energy Strategy 2050?

The new large-scale battery for Switzerland in Kappel supports the Energy Strategy 2050 and supports renewable energies.

Germany is expected to need 180 gigawatt-hours of battery energy storage systems by 2045. Both Reichmuth Infrastructure and MW Storage are already setting the course for the future energy ...

Their long-standing expertise and deep understanding of regional energy and infrastructure projects make them an ideal partner for expanding ...

We're excited to take an important step in Switzerland's energy transition together with Primeo Energie. In

Kappel, in the canton of Solothurn, one of the largest battery storage systems in ...

Utility EWS AG and developer MW Storage have completed the expansion of a battery energy storage system (BESS) project in Switzerland from 20MW to 28MW, making it ...

We're excited to take an important step in Switzerland's energy transition together with Primeo Energie. In Kappel, in the canton of Solothurn, one of the largest ...

As we approach Q2 2025's bid deadline, one thing's clear: Switzerland isn't just buying storage systems--they're procuring grid resilience. The winners won't be those with the cheapest kWh ...

2 days ago; The tech giant will provide funding for a portion of long-duration energy storage projects developed for the Salt River Project's electric grid, the partners announced Monday.

With its hydroelectric power plants in the Alps and innovative projects, Switzerland is contributing to the search for solutions for the efficient, long-term storage of electricity. I cover...

Are you looking for information on energy storage regulation in Switzerland? This CMS Expert Guide provides you with everything you need to know.

Based on proven methodologies and expertise, we plan and manage feasibility and prospecting studies. We also support our clients in the areas of production and distribution using our ...

A Swiss fund aimed at encouraging institutional investors to get on board with energy storage has reached its first closing at EUR66 million (US\$70.4 million). SUSI Energy ...

1 day ago; The tech giant will provide funding for a portion of long-duration energy storage projects developed for the Salt River Project's electric grid, the partners announced Monday.

The battery project is a purely privately financed initiative, which is implemented without public assistance and free of subsidies. MW Storage's first mega-battery is being financed by the ...

In a collaboration with Münchner Solarkraftwerke, Lion E-Mobility AG, the Swiss manufacturer of lithium-ion battery packs, aims to deliver more than 40 energy storage ...

SwissSTES aims to reduce Switzerland's dependency on fossil fuels by pioneering seasonal thermal energy storage (STES) to become a net-zero carbon society. An interdisciplinary ...

Swiss shipbuilding company Shiptec AG, based in Lucerne, and Siemens Energy SRL, Milan, have selected Leclanché to supply energy storage systems for two new hybrid ...

Swiss Energy Storage Project Partner

The move into standalone battery energy storage projects is a strategic evolution for the partnership, leveraging both parties' sector experience. SUSI's investment in these ...
