

# Temporary mobile power box

What is a temporary power distribution box?

Temporary power distribution boxes and carts serve as hubs for connecting electrical loads. Power centers and portable power stations act as a combination transformer and distribution panel to regulate and distribute power from a 480V AC power source.

What are temporary power distribution boxes & carts used for?

They are commonly used where power is needed on a temporary basis, such as construction sites, outdoor events, manufacturing facilities, and emergency situations. Temporary power distribution boxes and carts serve as hubs for connecting electrical loads.

What is temporary power distribution?

Power centers and portable power stations act as a combination transformer and distribution panel to regulate and distribute power from a 480V AC power source. Temporary power distribution cords and accessories aid in operation and function of power boxes and centers. When it comes to Temporary Power Distribution, you can count on Grainger.
