

Thailand intends to source nearly 35,000 MW of new electricity from renewables as it looks to reach carbon neutrality and net zero commitments. However, the deployment of ...

57 minutes ago&#0183; The 3rd ASEAN Battery Technology Conference (ABTC) successfully concluded on 29 August 2025. Set within the eco-conscious surroundings of Phuket, the conference ...

5 days ago&#0183; The Electricity Generating Authority of Thailand (Egat) plans to convert three hydropower dams into massive energy storage systems with a 90-billion-baht investment. This ...

With ongoing deployment of variable renewable energy technologies, such as solar and wind power, the opportunities for energy storage projects will increase. Long-term ...

In a significant move towards sustainable energy development, Thailand's Electricity Generating Authority (Egat) has launched a new floating ...

Thailand's renewable energy plan boosts battery storage systems Thailand's 2024 power development plan (PDP) aims to increase renewable energy use, highlighting the importance ...

ASEE-ASEAN Smart Energy & Energy Storage Expo  
global promotion global ...

Its completion also opens a new phase for Sungrow's long-term strategic progress in the solar and energy storage field in Southeast Asia. Thailand now ...

Thailand's energy storage sector leads in 2025 due to strategic government policies, abundant solar resources, industrial ecosystem integration, and diversified application ...

"By integrating battery storage with solar power, these projects will help to provide clean energy during non-daylight hours, grid stability and facilitate further integration of solar ...

This tropical paradise isn't just about pad thai and full moon parties anymore - it's becoming Southeast Asia's new energy storage powerhouse. With renewable energy ...

Energy storage is in its infancy in Thailand, and new business models are already emerging. As the regulatory framework adapts to accommodate new players in the market, it ...

To address this, the Electricity Generating Authority of Thailand (EGAT) has developed Energy Storage

# Thailand Energy Storage New Energy

System (ESS) to provide backup when the sun is not shining or the wind is not ...

Bangkok, 8 September 2025 - PTTEP has reached the final investment decision (FID) on Carbon Capture and Storage Project (CCS) at the Arthit gas field. This milestone marks Thailand's first ...

5 days ago; The Electricity Generating Authority of Thailand (Egat) plans to convert three hydropower dams into massive energy storage systems with a ...

Battery energy storage systems (BESS) are essential for buildings and renewable power generation facilities to ensure uninterrupted electricity supply. Renewable sources like ...

The 2024 updates to Thailand's renewable energy framework open significant opportunities for both new and established players. The introduction of Direct PPAs provides ...

To address this, the Electricity Generating Authority of Thailand (EGAT) has developed Energy Storage System (ESS) to provide backup when the sun is ...

The project is being conducted within the BESS area newly established on the premises of Siam Toyota Manufacturing (STM) in Thailand. Executives from TMC, TMA, and ...
