

Are solar plants equipped with Bess eligible for higher rates?

For the first time, solar plants equipped with BESS will be eligible for higher rates to compensate for the added complexity and investment costs. Tariff levels are also region-specific, taking into account solar radiation potential in Northern, Central, and Southern Vietnam.

How much does a solar project cost in Vietnam?

Overall, projects with storage receive higher FIT rates. Previously, Vietnam's FiTs were relatively low. In January 2023, the top rate was NT\$1.49/kWh for ground-mounted solar and NT\$1.89/kWh for floating solar, with no regional or storage-based distinctions.

Are solar panels regulated in Vietnam?

Vietnam's solar panel trade is regulated under Decree 26/2023/ND-CP, which outlines the Schedule of Export Tariffs and Preferential Import Tariffs. This decree, effective from July 15, 2023, sets specific import duties on goods, including solar panels and related components.

What are the requirements for a battery project in Vietnam?

The Vietnamese authorities also decided that battery projects under the FiT scheme must have at least 10% of a PV plant's capacity and offer at least 2 hours of storage. According to the latest statistics from the International Renewable Energy Agency (IRENA), Vietnam had approximately 18.66 GW of installed PV capacity at the end of 2024.

This speaks to the challenges Vietnam has faced related to anti-dumping tariffs on solar panels, particularly concerning accusations of illegal transshipments. Some foreign ...

This article delves into various aspects of the Vietnam solar panel industry, including its current trends, drivers of growth, market segmentation, and competitive landscape.

In January 2023, the top rate was NT\$1.49/kWh for ground-mounted solar and NT\$1.89/kWh for floating solar, with no regional or storage-based distinctions.

Vietnam Solar Energy Market Share Based on technology, the market is segmented into solar photovoltaic and concentrated solar power. The solar photovoltaic segment is projected to ...

HÀ NOI -- The Ministry of Industry and Trade (MoIT) has officially issued the 2025 electricity generation price ceiling framework for various types of power ...

The electricity price framework for 2025, applicable specifically to solar power plants, outlines the maximum

allowable tariffs across regions and ...

With the combined preliminary AD/CVD rates much higher than the 25-50% experts anticipated, prices have started increasing, and the market is continuing to adjust. Suppliers ...

HÀ NOI -- The Ministry of Industry and Trade (MoIT) has officially issued the 2025 electricity generation price ceiling framework for various types of power plants, including hydropower, ...

The electricity price framework for 2025, applicable specifically to solar power plants, outlines the maximum allowable tariffs across regions and plant types. Below are the ...

The Vietnam solar panel market is witnessing significant growth, driven by increasing energy demands, government support for renewable initiatives, and a shift towards ...

Vietnam holds 7 percent of the global solar photovoltaic market and produces enough cells and panels each year to generate 5 GW of electricity. The country is well positioned to maintain or ...

We analyze the business implications of Decision 988/QĐ-BCT, which revises Vietnam's feed-in tariff (FiT) rates for solar power projects.

For the first time, solar plants equipped with BESS will be eligible for higher rates to compensate for the added complexity and investment costs. ...

Overall, photovoltaic (PV) solar accounted for 69% of all new electricity-generating capacity additions in the first quarter of 2025, remaining the dominant form of new electricity ...

PRICE INDEX | August 2025 Photovoltaic Price Index Every month we publish a current price index on the development of wholesale prices of solar modules. In doing so, we differentiate ...

3.1. Residential PV 4,742 MWdc installed in 2024, 1,155 MWdc in Q4 2024 Down 31% from 2023 The residential solar market experienced its first annual contraction since ...

The Vietnamese authorities released the feed-in tariff levels for ground-mounted and floating PV plants, with or without storage.

Explore Vietnam solar panel manufacturing landscape through detailed market analysis, production statistics, and industry insights. Comprehensive data on ...

Vietnam solar panel market size reached 1.2 Gigawatt in 2024, the market expected to reach 2.4 Gigawatt at a CAGR of 7.87% during 2025-2033.

Solar Power Pricing Framework 2025 According to Decree 988/QD-BCT by the Ministry of Industry and Trade, the solar power pricing framework for 2025 is divided by power ...

For the first time, solar plants equipped with BESS will be eligible for higher rates to compensate for the added complexity and investment costs. Tariff levels are also region ...

Coalition trade lawyer says the U.S. Department of Commerce's final tariffs on solar cells and modules from Cambodia, Malaysia, Thailand and ...

This speaks to the challenges Vietnam has faced related to anti-dumping tariffs on solar panels, particularly concerning accusations of illegal ...
