

# What are the EMSs for Turkish communication base stations

What is Telecommunications in Turkey?

Telecommunications in Turkey provides information about television, radio, fixed and mobile telephones, and the Internet in Turkey. The telecommunications liberalisation process started in Turkey in 2004 after the creation of the Telecommunication Authority, and is still ongoing as of May 2013.

Is telecommunications liberalisation progressing in Turkey?

Telecommunications liberalisation in Turkey is progressing, but at a slow pace. The Telecommunication Authority (now renamed Bilgi İletişim ve Teknolojileri Kurumu or BTK), while technically an independent organization, is still controlled by the Ministry of Transport and Communications.

How many phone lines are there in Turkey?

There were 12.3 million (12.300.390) fixed phone lines, 82.2 million (82.795.432) mobile phone subscribers, and 80.9 million broadband subscribers (10.6 million xDSL, 3.8 million Fibre, 1.2 million Cable, 65 million Mobile) by Q3 2020. Telecommunications liberalisation in Turkey is progressing, but at a slow pace.

Do Turkish mobile phones need to be registered?

In 2017, the Turkish government introduced a requirement for all mobile phones to be registered in order to access Turkish mobile networks; both the user's details as well as the phone's IMEI must be provided. Phones that are used in the country for less than 120 days cumulatively are exempted from the registration requirement.

How long can a Turkish citizen use a foreign phone?

As of 2024, Turkish citizens living abroad are allowed to use foreign-purchased phones for up to 180 days in-country without paying the fee, although registration within 120 days is still required.
