

# Which companies are involved in Rwanda's battery base stations

How does REM support Rwanda's green initiatives?

Multiple delivery runs are done daily from the central charging depot to each battery swap station, to deliver freshly-charged batteries and collect depleted ones. REM is showing its full commitment to Rwanda's green initiatives by bringing in the country's only fully-electric truck for these delivery runs.

How can Rwanda contribute to the Green Growth & Climate Resilience Strategy?

It is proud to contribute to Rwanda's Green growth & Climate Resilience Strategy by introducing vehicles and their supporting carbon neutral battery exchange infrastructure that is convenient, affordable, reliable and safe.

Is battery swapping a good idea for Africa's motorcycle taxi drivers?

Additionally, according to Ampersand, battery swapping costs less than a tank of petrol and takes a driver further than fossil fuel options. This is especially important for Africa's motorcycle taxi drivers, who the company says work 6 days a week, for an average of 14 hours a day, and cover up to 190 kilometers per day, or about 120 miles.
