

Wind and solar subsidies for solar power generation systems

Are solar and wind projects eligible for tax subsidies?

Our Standards: The Thomson Reuters Trust Principles. The U.S. Treasury Department on Friday unveiled stricter rules for how solar and wind projects can qualify for federal tax subsidies that President Donald Trump's new tax and spending law is phasing out over the next two years.

What is a federal subsidy for wind?

The primary federal subsidy for wind is a tax credit known as the production tax credit, or PTC, which offers wind facilities and some other renewables a small tax credit for every kilowatt hour of energy produced over a farm's first decade.

Should wind and solar subsidies be double this year?

According to an analysis by Cornwall Insight, an energy consultancy, subsidies to the developers of wind and solar over the next two years need to be at least double this year's record level if the government is to reach its clean power goal by the end of the decade. The London Times reports:

Why are governments putting trillions into wind & solar subsidies?

Governments, especially in the West, are pouring trillions into subsidies for wind and solar despite their hidden costs, raising consumer costs and undermining economies.

Does wind work without subsidies?

President Donald Trump has repeatedly questioned the economics of wind energy, saying that wind "doesn't work" without subsidies. Experts have differing assessments of that.

How reliant is the wind industry on subsidies?

Experts have differing assessments of that. In the U.S., subsidies have played an important role in building the wind industry, which has grown from supplying almost none of the nation's electricity in 2000 to almost 7% in 2018. But when it comes to how reliant the industry is on subsidies today, analysts disagree.

19 hours ago; Wind and solar power generated more than a third of Brazil's electricity in August. This marks the first time these renewable sources have crossed that threshold, according to ...

Washington, D.C. -- Congresswoman Julie Fedorchak (R-ND) spoke on the House Floor to highlight ten reasons why we must phase out tax credits for wind and solar energy.

While the standards are not subsidies in the traditional sense, multiple experts said they function like subsidies and have driven wind development in areas where it otherwise ...

Wind and solar subsidies for solar power generation systems

Wind and solar are no longer at a cost disadvantage. One of the stated goals of renewable energy subsidies and mandates has been to stimulate demand for wind and solar ...
